

International Students' Union of Norway

National Assembly Spring 2007

Alternate Vice President's Report

Susana Serra, 2006-2007

Welcome to Stavanger! If you are reading this document, it means that you are a dedicated delegate :=) thank your for that!

I'm from Portugal and I'm studying a Master in Change Management at the University of Stavanger. I was luckily elected (by a flip of a coin) in September 2006.

My main goals since September 2006 have been the same as Eton: represent ISU and international students, strengthen the contact between ISU and our partners. I have also tried to serve as inspiration and patience source to Eton when the cases seem to have no end or solution. That is what one can call of teamwork – samarbeid!!!

My tasks:

As you might realize by ISUs constitution the role of an alternate VP might be very passive, unless you are like me and you are not good with passivity...so now the role of an alternate VP is extremely active!

Check it out:

- Part of Plan of inclusion in Stavanger;

- Attended NSU LS social gathering Feb'07 to meet international officers

- Attended NSU LS, Mar '07 together with Eton

- Participation in election process and power transfer guidance in Stavanger

- Proposal to move NA from Oslo to Stavanger: Gather conditions to welcome the NA in Stavanger such as sponsorship and support from local ISU and NSU branch.

Incentives to the local branches to get more involved and see that the possibilities to improve our network and work are infinitive. We hope to inspire you for welcoming further NA's!

In the name of ISU Norway and ISU Stavanger, a very special thanks to:

NSU leader Kjetil Clementsen for his always open door and great support

UiS's leadership for giving financial support to ISU's work in the value of 10.000NOK

Stavanger Kommune for giving financial support to ISU's work in the value of 10.000NOK

SiS for giving financial support to ISU's work in the value of 6.000NOK

Without your support we wouldn't be able to do it!

We hope Stavanger pleases you!
