

ISU Oslo

Who are we?

- ISU Oslo is a branch of ISU Norway, a non-profit organization run for and by international students.
- On a national level we work in cooperation with the Norwegian Students Union. Here at the University of Oslo, ISU collaborates with the Student Parliament to represent international students.
- To sum it up, we aim to serve reliably as a practical, social and cultural resource and foremost as a moral support base.
- We try to foster a spirit of co-operation and understanding between the international students and the greater university community.

What we do

- We provide information, help with orientation and do general problem solving. If we can't solve the problem or answer the question we will help the student to find someone who can.
- As a social resource we arrange or collaborate on several events throughout the year to encourage interaction.

What goes on

- Tight & Bright launch party
- Football tournaments
- Arrange tours and travels
- Halloween events and party
- International send Off
- Newspaper for international students
- And much more.....
