B) Summary of Activities during Academic Year 2009

ISU BI consists of InSA (International Students Association), BBA (Bachelor in Business Administration) and GSS (Graduate Students Society):

InSA`s task is to introduce BIs exchange students to Norway and Norwegian culture, as well as the student environment at our school. We offer social events and opportunities for fun and making friends all throughout the semester.

The Bachelor of Business Administration program is an internationally recognized degree from BI. The BBA board organizes social events and takes care of the BBA students` welfare.

The Graduate Students Society`s main function is to provide a better social and academic environment for BI`s master students. We arrange activities such as social events and academic seminars to support students in building new friendships and networks and preparing for the practical work life.

C) General Assemblies

ISU BI does not have joint General Assemblies. The three subdivisions arrange for this kind of matters themselves.

D) Social Activities

InSA: Pick-up from Oslo central station offered to all exchange students, Introduction week with a buddy system and activities (campus tour, parties, concerts, sightseeing, sailing challenge, relay run), three movie nights, Talkpartner Program, Stavanger trip, Copenhagen trip, Theme party, International cooking dinner, Farewell Christmas dinner.

GSS: We have had introduction week where we got international students and norwegians to meet. We have socialisation parties where we target international students. We continue to have events that inspire cooperation and excitement among both Norwegian and foreign students.

E) Cases, Campaigns and Student Politics

InSA: Works closely with the international office at BI so that we can forward issues with regards to the exchange students academics and welfare to them.

GSS: Our board has 3 international students. We work closely with SBIO where we raise issues raised by our international students.

F) Comments, Evaluation and Future Improvements

ISU at BI has three representatives, one from each subdivision. InSA, BBA and GSS are three very active and important groups at BI and event thought all of them are established and successful within their fields, we are looking forward to a closer cooperation for all international students at BI.

G) Budget

ISU BI does not have a joint budget, since we only cooperate on specific events and happening. The three subdivisions arrange for this kind of matters themselves.
