B) Summery of Activities during Academic Year 2009

- 6 Board meetings have taken place in regular basis.
- Work to elaborate the Constitution. (It should be finish by the week 44)
- Application for the Organization Number. (Waiting for the reply)
- Application to the frifond.
- 5 International Dinner Meetings, with the participation of more than 325 International Students, especial guest speakers were invited to each one. (4 more of these are schedule before the end of the year)

C) General Assemblies

More than 20 International Students show up for the democratic elections of the new board: on the 20th of August, 7 members were elected.

D) Social Activities

International Dinner Meetings, is a gathering for sharing and contact all international students, meet diversity and learn from each other. Is a major success growing and growing.

E) Cases, Campaigns and Student Politics

Supported 2 International Students that were listed in a class on English, but the teacher was speaking Norwegian all the time. We help to raise the complain and solve the situation.

F) Comments, Evaluation and Future Improvements

We have managed to organize the Student Union and formalize the presence, we have met with the main groups and cooperating entities, so from now on ISU at OUC will exist with weight. We still have to obtain fixed funding so that each board can develop easily.

G) Budget

We need 24,220 kroner from which we have obtained 18,300.
We still have to propose more activities and find funding opportunities.

F) Other issues

The situation with the previous ISU at OUC Board's debt is still not clear. The conversations between the International Office at OUC and the Student Parliament are starting to bounce from one to the other. It is not our responsibility, but still figures in our image and the financial status of the ISU-Norway.
