This is an agreement of cooperation between the organizations Industri Energi Student and International Students' Union of Norway (ISU Norway).

Industri Energi Student and International Students' Union of Norway (ISU Norway) have a history of mutual cooperation and have had members from one organization being members of the central board of the other.

This agreement is to make the cooperation slightly more formalized and help future boards on how to work together both organizations.

Both organizations are in their own way concerned with the rights of students, by working together we can represent them better.

1) Representation. Both parties will inform each other, and invite to their annual meetings.

2) Information. Both parties should inform their members of each other and the benefits of membership in one other organizations for those whom it is relevant.

3) Cooperation. Both parties are to support each other at a national and local level.

At the national level support, can be in the form of campaigns or networking to further relevant policies.

Local level support can be in the form of recruitment aid to each other's organizations, courses, courses or organization building.
