Upcoming Studies : Industrial engineering Master

Dear Fellow Delegates and International Students,

It is with a big pleasure passion and honor that I propose my candidacy for the position of President for the National Board of ISU. All started in 2005 when I had my first experience to write articles and speak to the Media one a week to talk about students rights and defending their future. I did that job during 3 years and it made believe in my self as a student activist and knew that if I want to make a change I need to go further and make my voice heard in the political society. Therefore I was involved in the political and social life for the last 8 years in France. I worked with Erasmus Student's union as an organiser. I joined the Crous and stayed with them for 3 years, I was helping international students to integrate the French society and supervise the international student housing. Later I joined the 9m carré association. I was one of their delegates during 2 years. Besides I was working as a volunteer in the Red Cross as a teacher.

I moved to Norway last summer and I was quite nervous and anxious if I am going to fit in the Norwegian society and find my place in it. Since my first day at the university I was looking for deferent clubs to join and getting to know other students. I didn't know about ISU until the election came and after reading what ISU stands for I decided to join. I worked with local branche and it was an opportunity to meet other international students, share our concerns and try to find a way to include other students, defend their rights and make them feel home.

I got the chance to be a part of the leadership meeting in Bergen where I did know about the vacant positions in the National Board. I felt nervous and challenged in the same time to candidate. I doubted my self winning the election because I did not the delegates from before and the candidate who candidates against me was more famous there. However after my presentation the delegates believed in me and appreciated my ideas and the work I did with The local branche.

I was the Political Affairs Officer for the last two months. I can describe it as one of my the most challenging positions I got.

My previous political affairs officer experience and Social Media and Communications officer have enabled me to develop the qualities you are looking for in this position. I have had several deferent experiences, which I believed demonstrate my creativity and humor in addition to my writing abilities.
