Topic: « Addressing the issue of gender imbalance »

The General Assembly,

Willing to facilitate the access to higher position in ISU for women as well as men,

Reminding all branches of the importance of the general assembly as a large meeting of all stakeholders of ISU Norway and the immense power of decision making,

Reaffirming the past attempt at improving the gender imbalance issue, instigated by Daniel H. Iniesta,

Stressing the remaining issue of gender equality within ISU Norway high committees as well as within ISU local branches,

Having examined the quotas solution and deduced that quotas are a impediment to competition and therefore to democracy,

1. *Encourages* the local branches and delegates who have been investing in the improvement of gender equality, to continue to do so;
2. *Urges* every delegate and local branches who are subject to gender inequality to implement the following propositions in order to achieve gender equality;
3. *Requests* every fore-coming election to be held under the condition of gender parity in candidacies;
4. *Calls upon* every delegate to work locally in promoting vacancies more strenuously within ISU;
5. *Requests* every official demonstration to represent both genders equally.
